

ERPP STRATEGIC PLAN

E - 0 1 6 5 1 5

E-016515

Memorandum

Date: March 5, 1998

To: BDAC Members

From: Lester A. Snow
Executive Director

Subject: Ecosystem Restoration Program Strategic Plan

Attached to this memo is a draft document entitled "Developing a Strategic Plan for Ecosystem Restoration." This document describes the status and process for developing a Strategic Plan for the Ecosystem Restoration Program (ERP) and revising volume III of the Ecosystem Restoration Program Plan (ERPP).

Expected Outcomes from BDAC Discussion

The people who prepared this draft, including CALFED agency staff, the Ecosystem Restoration Work Group and other stakeholders, are seeking concurrence from the full BDAC on the proposed process for developing the strategic plan. They are also seeking BDAC's input on the draft outline of the Strategic Plan.

Specifically, the document preparers would like the following questions addressed:

- Are other Strategic Plan purposes, other than those described on pages two and three of the draft, needed to address the primary criticisms of the draft ERPP?
- What adjustments, if any, are suggested for improving the process, described on pages three through four of the draft and the proposed time line, presented on page 17?
- What does BDAC think about the proposed components of the strategic plan (pages five through 17) and the draft outline (pages 18 through 22)?

We look forward to your comments and thoughtful discussion.
